

# EVACUATION LIST

## PREPARING:

1. Get an old pillowcase (easy to find at the thrift store if you don't have one). Keep it under your bed. NOTE: It is empty when you put it under the bed. You fill it when you evacuate.
2. Walk through your house. This is the only way to ensure you are remembering all the necessities and valuables you want to list.
3. Use the suggested items as just that – suggestions. As you walk around your home, you will note what is important to you.
4. Prioritize the items on your list according to the time frames given. Be realistic! **Practice gathering your items** so you know how long it takes to gather them.
5. Place your completed list inside the pillowcase, and put them under your bed. (We are simply adding to your 'under-the-bed-supplies:' sturdy shoes, hard hat, light sticks, etc.)

## RESPONDING:

1. ALWAYS follow the instructions of the officials ordering the evacuation.
2. Get your evacuation list and pillowcase from under your bed. Gather your possessions, paying strict heed to the amount of time you have been given.
3. NEVER try to gather more items than the time you have been given allows.
4. ALWAYS remember that your life, and the lives of your loved ones, matter more than any possession.
